AGRICULTURAL ENGINEERING

The Journal of the

American Society of Agricultural Engineers

Index to Volume 10—January to December, 1929

Issues	1929	Pages		Pages		
January		1-42	Bearings in Farm Equipment, Anti-Friction (L. M. Klinedinst)	221	Cobb, J. S.—Effect of weather conditions on the moisture content of standing grain	54
February		43-80	Bennett, Charles A.—Recent experiments in drying seed cotton	309	Collins, Edgar V.—The direct application of mechanical power to soil tillage	165
March		81-112	Bennett, H. H.—The economics of preventing soil erosion	291		
April		113-142	Bentley, M. R.—Promoting terracing work in Texas	297	Combines (Combined Harvester-Threshers) (See also Drying, Grain)	
May		143-180	Beresford, Hobart—Some new developments in combine harvesting in Idaho	45	Some New Developments in Combine Harvesting in Idaho (Hobart Beresford and E. N. Humphrey)	45
June		181-210	Black, R. H.—Cleaning grain harvested with the combine	53	Grain Loss Tests of Combine Harvesters in Missouri (M. M. Jones)	47
July		211-242	Boonstra, Richard—Demonstration farm shows possibilities of electricity in agriculture	94	Windrow Method of Combine Harvesting (A. J. Schwantes)	49
August		243-274			Harvesting Beans With the Combine in Michigan (E. C. Sauve)	51
September		275-306			Harvesting Soybeans With the Combine (I. D. Mayer)	52
October		307-338			Cleaning Grain Harvested With the Combine (R. H. Black)	53
November		339-370			Effect of Weather Conditions on the Moisture Content of Standing Grain (C. O. Cromer, J. S. Cobb and H. B. Josephson)	54
December		371-400			The Combine in the Prairie Provinces (E. A. Hardy)	55
					The Combine in Saskatchewan (J. K. MacKenzie)	57
Ackerman, W. T.—Research studies in rural refrigeration		101	Boss, William—The engineer and civilization	213	Engineering Developments in Combines (John Mainland)	59
Advertising, Agricultural Engineering (D. B. Lucas)		263	Breider, G. C.—Ventilating dairy barns with electricity	99	Combining Under Adverse Weather Conditions (F. C. Fenton)	64
Aginsky, L. N.—Method of calculating number and size of tractors required for given conditions		169	Brigham, Harriet C.—Research in household equipment for electric cooking	100	Field Problems in Combine Harvesting (J. Fletcher Goss)	65
Agricultural Engineering (Agricultural Engineer) (See also Dairy Engineering and Equipment; Meetings)			Brooder, The Design and Construction of the Electric (A. R. Wood)	265	Combine and Grain Drying Experiences (C. O. Aspenwall)	66
Engineering or Farm Machinery (J. B. Davidson) (Editorial)		138	Brooding of Chicks, Electricity for the Artificial Incubating and (J. E. Dougherty)	321	Windrow and Pick-Up Attachments (I. D. Mayer)	67
Meeting a Demand (Editorial)		178	Brown, Lloyd N.—Irrigation investigations on the peat lands in the Sacramento-San Joaquin delta	249	The "Combine" Up to Date (Editorial)	76
The South (Editorial)		206	Brunig, M. P.—A mechanical refrigeration study	268	A Revolutionary Machine (Editorial)	76
The Greatest Engineering Problem (Editorial)		206	Buildings (See also Dairy Engineering and Equipment; Houses, Farm; Ventilation)		Harvesting Sorghums by Root Cutting and Combining (John P. Conrad and E. J. Stirniman)	227
The Engineer and Civilization (William Boss)		213	The Wiring of Farm Buildings (H. H. Weber)	85	Harvesting Corn with a Combine (E. G. McKibben)	231
A Broad Definition (Editorial)		240	The Need of Structural Standards for Animal Shelter Buildings (J. L. Strahan)	115	Competition in Wheat Production, The World (M. L. Wilson)	168
Where are We Today in Agricultural Engineering? (Arthur Huntington)		245	The Need of Standardization in Farm Construction Practice (Frank P. Cartwright)	116	Conrad, John P.—Harvesting sorghums by root cutting and combining	227
Agricultural Engineering Advertising (D. B. Lucas)		263	Dairy Barns From a Manufacturing Point of View (H. B. White)	117	Coolers, Performance Tests on Evaporation Type (W. L. Ruden)	349
The Philosophy of Mike Thomas (Editorial)		272	Development of Research in Farm Structures (Henry Glese)	121	Corn Borer Control, Committee Makes Recommendation on (Committee Report)	395
Recent Economic Changes (Editorial)		272	Farm Structures (Editorial)	138	Corn Borer Control Device, A (R. B. Gray)	234
Help Wanted (Editorial)		272	An Experiment Station Building Project (Deane G. Carter)	172	Corn With a Combine, Harvesting (E. G. McKibben)	231
Basic Training (H. B. Walker) (Editorial)		304	Building Design for Southern Conditions (L. E. Hazen)	195	Cornell, F. D., Jr.—Stationary spraying systems in West Virginia orchards	160
Engineering Applied to Agriculture (H. B. Walker)		341	New Designs for Southern Farm Buildings (Deane G. Carter)	197	Cotton Production Costs by the Utilization of Improved Machinery, Reducing (F. R. Jones)	183
Stimuli (Editorial)		366	Pneumatic Tamping in Rammed Earth Wall Construction (J. D. Long)	258	Cotton, Recent Experiments in Drying Seed (Charles A. Bennett)	309
Engineering's Contribution to Agricultural Prosperity (W. G. Kaiser)		373	Economics of Farm Structures and Equipment (V. B. Hart)	387	Cowell, A. J.—Dairy equipment problems and some recent developments	73
Agricultural Engineering Research Opportunities in the North Atlantic States (R. W. Trullinger)		375	By-Products in Congress (Editorial)	334	Crane, H. L.—Stationary spraying systems in West Virginia orchards	160
Co-Working (Editorial)		398	Campbell, Thos. D.—Ten years' experience in manufacturing wheat on 100,000 acres	18	Cromer, C. O.—Effect of weather conditions on the moisture content of standing grain	54
The Virtue of Work (Editorial)		398	Carter, Deane G.— An experiment station building project New designs for southern farm buildings A study of farm house costs	172 197 203		
Agricultural Engineering Digest (See Index to Abstracts and Reviews in Agricultural Engineering Digest Section (on separate sheet))			Cartwright, Frank P.—The need of standardization in farm construction practice	116		
Aspenwall, C. O.—Combine and grain drying experiences		66	Cleaning Grain Harvested With the Combine (R. H. Black)	53		
Bacon, C. A.—Some physical aspects of organic matter		83	Clegg, W. A.—Production of peanuts with power machinery	199		
Baird, R. W.—The relation of runoff to vertical interval of terraces		188				
Banash, J. I.—Special applications of the oxyacetylene welding process to the repair of farm implement parts		233				
Bartel, F. O.—Soil erosion and water conservation facts from the North Carolina experiment		287				
Beans with the Combine in Michigan, Harvesting (E. C. Sauve)		51				

Irrigation Requirements of the Arid and Semiarid Lands of the Missouri and Arkansas River Basins	37	Power Requirements of a Mower, The Effect of Different Speeds on the	269	Surveying and Drainage Laboratory Manual, Agricultural	137
Irrigation Results, Pump	175	Pressures Under Substructures, The	303	Tanks, Seeding New	107
Irrigation, The Economic Limit of Pumping for	175	Products in Industry, Farm	137	Teams on Illinois Farms, Big	37
Irrigation Treatments on the Crops Grown the Succeeding Year, Residual Effects of Different	37	Pulling Power of Many Teams Studied, Measured	237	Teams Studied, Measured Pulling Power of Many	237
Irrigation Water, An Apparatus for adding Gypsum to	137	Pulverizing Limestone on the Farm	205	Terracing for Moisture Conservation	365
Knock, Importance of Mixture Ratio in Rating Fuels for	205	Pumping for Irrigation, The Economic Limit of	175	Terracing in Oklahoma	136
Knock Ratings of Pure Hydrocarbons	365	Pumping from Underground Sources, The Development of Water Supplies for Irrigation in Nevada by	175	Testing, Quantitative Anti-knock	237
Knock Suppression, Metallic Colloids and L-Block: A Type of Concrete Block Adapted to the Economical Construction of Farm Buildings, The	270	Pump Irrigation Results	175	Test of Large Model of Cellular Concrete Arch, Load	303
Light and Suction-Fan Trap for Insects, Combined	106	Pumps, Farmers Purchase Agreement for Deep-Well	37	Test on Lubricating Oils	270
Limes and Plasters, Cements	136	Reclamation of Peat Land in Northern Europe	365	Tests of Concrete, Wear	75
Limestone on the Farm, Pulverizing	205	Refrigerating Machinery in the Dairy Industry	106	Tests, 1928, Nebraska Tractor	364
Lubricating Oils, Test on	270	Refrigerating Machine, The Compression	75	Tests, 1920-1927, Rules for Official Tractor Testing, and the Nebraska Tractor Law, Nebraska Tractor	75
Lysimeter Investigations Conducted at the Umatilla Field Station, 1923, 1924 and 1925, Strip Border Irrigation Experiments and	107	Refrigeration	237	Thresher for Single Plants, Self-Cleaning	269
Machinery and Equipment, Farm	365	Refrigeration, Household	108, 136	Tile Drainage Pay? Does	107
Machinery, The International Trade in Farm	237	Refrigeration, Powers Practical	237	Traction Dynamometer for Ploughing	106
Machines, Can Washing	270	Refrigeration, Research in	237	Traction Machinery, Investigations of Air Cleaners for Motor Plows and	74
Magnetic Properties of Steel, Note on the Effect of Repeated Stresses on the	176	Research in Mechanical Farm Equipment	176	Tractive Resistance of Farm Wagons, Investigations on the	269
Materials and Building Construction Parts, Air Permeability of Building	303	Roads, Public	237, 333	Tractor Tests 1928, Nebraska	364
Mechanical Farm Equipment, Research in	176	Runoff Water Losses in Relation to Crop Production	175	Tractor Tests, 1920-1927, Rules for Official Tractor Testing, and the Nebraska Tractor Law, Nebraska	75
Metallic Coatings, Protective	74	Rural Construction, Low-Cost	75	Trade in Farm Machinery, The International	237
Metallic Colloids and Knock Suppression	270	Safeguarding of Machinery and Other Dangerous Plants Used on Farms	74	Ventilating Engineers Guide, The American Society of Heating and	176
Oil Heating, Handbook of Domestic	238	Shaker? Is the Vibrating Shaker as Efficient as the Shovel	74	Ventilation, Dairy Stable	75
Oxidation of Liquid Hydrocarbons, action of Accelerators and Inhibitors Upon the	205	Shrinkage of Boards of Douglas Fir, Western Yellow Pine, and the Southern Pines	136	Ventilation, Heating and	136
Paint, Protecting Wood With Aluminum	238	"Spontaneous" Ignition in Stable Manure, An Observed Case of	75	Venturi Flume, The Improved	270
Paints as Protective Coatings for Wood, A Principle for Testing the Durability of	238	Spraying and Spray Equipment, Orchard	74	Walls, Strength of Interlocking-Rib Tile	75
Peat Land in Northern Europe, Reclamation of	365	Stable Ventilation, Dairy	75	Wall Tile, Fire Resistance of Hollow, Load-Bearing	364
Plasters, Cements, Limes and	136	Stackers for Hay and Straw, Blowing	74	Water Analysis, Notes on Practical	107
Ploughing, Traction Dynamometer for	106	Steel, Accelerated Laboratory Corrosion Test Methods for Zinc-Coated	176	Water-Finder Work in the Bombay Presidency	237
Plough, The	106	Steel Construction	205	Water in Drainage Ditches, Flow of	107
Plowing with Electricity in Italy	106	Steel, Note on the Effect of Repeated Stresses on the Magnetic Properties of	176	Water in the Ordovician Rocks Near Woodstock, Virginia, Ground	107
Plows and Good Plowing	237	Straw Lofts for Poultry Houses	74	Water Losses in Relation to Crop Production, Run-Off	175
Pneumatic Tires, Tractive Resistance of Automobiles and Coefficients of Friction of	175	Stream Flow Experiment at Wagon Wheel Gap, Colorado, Forest and	107	Water Movement, Drainage Record and Ground	175
Pollution in Wisconsin, Stream	170	Stream Flow in General Terms	74	Water Requirements of Crops	37
Poultry Houses, Straw Lofts for	74	Stresses, A Study of the Failure of Concrete Under Combined Compressive	237	Waters of New Jersey, Quality of the Surface	136
Poultry, Housing Farm	364	Subirrigation, Experiments with Irrigation and	37	Wheat, Combining Unevenly Ripened	205
Power for Cultivation and Haulage on the Farm	106	Sub-Solling in 1925, Trials of	37	Wiring the Farm for Light, Heat and Power	270
Power Problems of the Farm,, Some	175	Substructures, The Pressures Under	303	Wood Floors	303
		Sugar From Sugar Beet, The Development and Costs of the Oxford Process for the Production of	365	Wood Preservation, Low Temperature Coal-Tar Creosote in	269
				Wood Preservatives, Absorption of	333

Klinedinst, L. M.—Anti-friction bearings in farm equipment	221	Farmer Executives (Editorial)	206	Refrigeration, Research Studies in Rural (W. T. Ackerman)	101
Knapen, Theo. M.—Advantages of the trade and grade marking of lumber	120	A Successful Farm Record Form	255	Refrigeration Study, A Mechanical (M. P. Brunig)	268
Krueger, W. C.—The trend in rural electrification	380	More Industrialization (Editorial)	366		
Larson, John M.—Filling silos with a 3-hp. motor	393	Economics of Farm Structures and Equipment (V. B. Hart)	387	Research	
Lehmann, E. W.—Studies of seed corn testing with electric germinators	97	Martin, G. E.—Control of erosion in Oklahoma	190	(See also Buildings; Combines; Dairy Engineering and Equipment; Drainage; Drying; Grain; Electrification; Rural; Erosion Control; Soil; Hay and Forage Crops; Artificial Curing of; Irrigation; Rope Tests; Sewage Disposal; Soils; Standardization; Tractors; Ventilation)	
Long, J. D.—Terminology in earth wall construction	258	Promoting terracing in Oklahoma	299	Research Studies in the Economics of Large-Scale Farming in Montana (M. L. Wilson)	3
Lucas, D. B.—Pneumatic tamping in rammed earth wall construction	259	Materials		Research in Household Equipment for Electric Cooking (Harriet C. Brigham)	100
Lucas, D. B.—Agricultural engineering advertising	263	(See also Buildings, Tractors)		Research Studies in Rural Refrigeration (W. T. Ackerman)	101
Ease and comfort in tractor operation	313	Advantages of the Trade and Grade Marking of Lumber (Theo. M. Knapen)	120	Strengthen Research (R. W. Trullinger) (Editorial)	110
Lyman, F. A.—Farm fencing needs economic engineering study	317	Heat-Treated Clay Aggregates (T. H. Merriam)	128	Development of Research in Farm Structures (Henry Glese)	121
Substitutes and competition	394	Terminology in Earth Wall Construction (J. D. Long)	258	Research in Mechanical Farm Equipment—1928 (R. W. Trullinger)	357
Machinery (Mechanical Equipment)		Mayer, I. D.—Harvesting soybeans with the combine	52	Agricultural Engineering Research Opportunities in the North Atlantic States (R. W. Trullinger)	375
(See also Combines; Dairy Engineering and Equipment; Drying; Grain; Electrification; Rural; Management; Tractors)		Windrow and pick-up attachments	67		
Farm Organization for Modern Machinery (D. Howard Doane)	27	McKibben, E. G.—Harvesting corn with a combine	231	Rice in Binding, A Study of Loss of (E. J. Stirniman and C. F. Dunshee)	325
The Installation of Farm Feed Mills (E. R. Meacham)	87	McPheeters, W. H.—Roadside and hillside protection against soil erosion	282	Rietz, G. A.—Farm installation of electric motors	104
Stationary Spraying Systems in West Virginia Orchards (F. D. Cornell and H. L. Crane)	160	Meacham, E. R.—The installation of farm feed mills	87	Riley, Howard W.—Progress in grain drying in New York	60
The Direct Application of Mechanical Power to Soil Tillage (J. B. Davidson and Edgar V. Collins)	165	Meetings (A.S.A.E.)		Natural draft dairy stable ventilation	125
Reducing Cotton Production Costs by the Utilization of Improved Machinery (F. R. Jones)	183	Division Meetings in Chicago	40	River Bank Protection, The Scheffle system of (Roy N. Towl)	36
Production of Peanuts with Power Machinery (W. A. Clegg)	199	Dairy Machinery	41		
Producing Corn and Soybeans With Mechanical Power (C. L. Osterberger)	201	Two Sections Hold Joint Meeting	111	Rope Tests	
Anti-Friction Bearings in Farm Equipment (L. M. Klinedinst)	221	Pacific Coast Section Meeting	111	Strength Tests of Knots, Hitches and Splices (J. Grant Dent)	261
Special Applications of the Oxyacetylene Welding Process to the Repair of Farm Implement Parts (J. I. Banash)	233	North Central Section Meets at Fargo	208	Ruden, W. L.—A vacuum gage for pumps	326
A Corn Borer Control Device (R. B. Gray)	234	Agricultural Engineers Welcomed at Dallas	241	Performance tests on evaporation type coolers	349
A New Pump for Reclamation Service (W. H. Holcomb)	253	North Atlantic Section Meeting	370	Runoff from Small Agricultural Areas, The Rational Method of Estimating (Committee Report)	351
A Test of Corn Planter Fertilizer Attachments (Ove F. Jensen)	323	Merriam, T. H.—Heat treated clay aggregates	128	Runoff to Vertical Interval of Terraces, The Relation of (R. W. Baird)	188
A Vacuum Gage for Pumps (W. L. Ruden)	326	Moses, Ben D.—Suggestions on the construction and operation of dairy farm cooling plants	327	Sanitation (See Sewage Disposal; Ventilation)	
Research in Mechanical Farm Equipment—1928 (R. W. Trullinger)	357	Motors, Electric (See Electrification, Rural)		Sauve, E. C.—Harvesting beans with the combine in Michigan	51
The Installation of Farm Water Systems (J. P. Schaenzer and F. W. Duffee)	361	National C. S.—Experiments on the artificial curing of hay	191	Schaenzer, J. P.—The installation of farm water systems	361
Economics of Farm Structures and Equipment (V. B. Hart)	387	Neurology		Schwantes, A. J.—Windrow method of combine harvesting	49
Filling Silos With a 3-hp. Motor (John M. Larson)	393	W. K. Winterhalter	79	Seed Corn Testing with Electric Germinators, Studies of (E. W. Lehmann)	97
MacKenzie, J. K.—The combine in Saskatchewan	57	Geo. C. Kreutzer	400	Septic Tanks (See Sewage Disposal)	
Mainland, John—Engineering developments in combines	59	Nelson, J. Ward—The future trend of farming in the Middle West	24	Sewage Disposal	
Management		Newcomb, Rexford—Evolution of the American farm house	131	Studies of the Septic Tank Method of Sewage Disposal for Isolated Homes (H. B. Walker and R. H. Driftmiller)	256, 360, 330
Research Studies in the Economics of Large-Scale Farming in Montana (M. L. Wilson)	3	Nourse, E. G.—Economic issues of large-scale farming	13	Shedd, Claude K.—The design of the mangum terrace	225
Economic Issues of Large-Scale Farming (E. G. Nourse)	13	Oil Filter Make Crankcase Draining Unnecessary? Does the (A. H. Hoffman)	235	Short, A. K.—The bank's interest in soil erosion	289
Ten Years' Experience in Manufacturing Wheat on 100,000 Acres (Thos. D. Campbell)	18	Organic Matter, Some Physical aspects of (C. A. Bacon)	83	Silos With a 3-hp. Motor, Filling (John M. Larson)	393
Group Management of Corn Belt Farms (J. M. Dowell)	21	Osterberger, C. L.—Experiments on the artificial curing of hay	191	Small, F. W.—Construction of milk cooling houses and insulated tanks	383
The Future Trend of Farming in the Middle West (J. Ward Nelson)	24	Producing corn and soybeans with mechanical power	201		
Farm Organization for Modern Machinery (D. Howard Doane)	27	Oxyacetylene Welding Process to the Repair of Farm Implement Parts, Special Applications of the (J. I. Banash)	233	Soils	
Large-Scale Farming Problems Discussed	31	Patitz, J. F. Max—Waste heat from power stations for hothouse	332	(See also Erosion Control, Soil; Irrigation)	
Seeking the Facts About Large-Scale Farming (Editorial)	38	Peanuts With Power Machinery, Production of (W. A. Clegg)	191	Some Physical Aspects of Organic Matter (C. A. Bacon)	83
Team Work for Economists and Engineers (Editorial)	38	Ramser, C. E.—The federal soil erosion projects	277	The Direct Application of Mechanical Power to Soil Tillage (J. B. Davidson and Edgar V. Collins)	165
Specialization of Labor (Editorial)	178	Rational Method of Estimating Runoff from Small Agricultural Areas, The (Committee Report)	351		
Producing Corn and Soybeans With Mechanical Power (C. L. Osterberger)	201	Reclamation, Land			
		(See also Erosion Control, Soil; Drainage; Irrigation)			
		A New Pump for Reclamation Service (W. H. Holcomb)	253		

Soil Moisture and Fertility Conservation (R. E. Dickson)	285	Terracing (See Erosion Control, Soil)		Natural Draft Dairy Stable Ventilation (Howard W. Riley)	125
Sorghums by Root Cutting and Combining, Harvesting (John P. Conrad and E. J. Stirnman)	227	Towl, Roy N.—The Scheffle system of river bank protection	36	Vacuum Gage for Pumps, A (W. L. Ruden)	326
Soybeans With the Combine, Harvesting (I. D. Mayer)	52	Tractors		Waggoner, J. E.—The individual plant in rural electric development	390
Spraying From Stationary Plants (E. R. Gross)	385	A Field Test of Tractor Wear and Endurance (A. H. Hoffman and E. J. Stirnman)	35	Walker, H. B.—Application of engineering to dairy production	71
Spraying Systems in West Virginia Orchards, Stationary (F. D. Cornell and H. L. Crane)	160	The Requirements of the General-Purpose Tractor (D. C. Heitshu)	144	Studies of the septic tank method of sewage disposal for isolated homes 256, 300, 330	
Standardization (Standards)		Method of Calculating Number and Size of Tractors Required for Given Conditions (L. N. Aginsky)	169	Basic training (Editorial)	304
The Need of Structural Standards for Animal Shelter Buildings (J. L. Strahan)	115	The General-Purpose Tractor (Editorial)	178	Engineering applied to agriculture	341
The Need of Standardization in Farm Construction Practice (Frank P. Cartwright)	116	Tractor Uses 250 Heat Treated Parts (H. Grothe)	229	Waste Heat from Power Stations for Hothouse (J. F. Max Patitz)	332
Steel Joints, Tensile Strength of Bolted Riveted and Welded Mild (J. Grant Dent)	354	Nourse on Tractors (Editorial)	240	Water Systems, The Installation of Farm (J. P. Schaezner and F. W. Duffee)	361
Stirnman, E. J.—		Ease and Comfort in Tractor Operation (D. B. Lucas)	313	Weber, H. H.—The wiring of farm buildings	85
A field test of tractor wear and endurance	35	Cultivating Sugar Cane With Tractors (H. H. Hart)	324	White, H. B.—Dairy barns from a manufacturing point of view	117
Harvesting sorghums by root cutting and combining	227	Transportation Plus (Editorial)	398	Wilson, M. L.—	
A study of loss of rice in binding	325	Trullinger, R. W.—		Research studies in the economics of large-scale farming in Montana	3
Strahan, J. L.—		Strengthen research (Editorial)	110	The world competition in wheat production	168
Ventilation essentials	90	Research in mechanical farm equipment	357	Windrow Method of Harvesting Grain (See Combines)	
The need of structural standards for animal shelter buildings	115	Agricultural engineering research opportunities in the North Atlantic states	375	Wood, A. R.—The design and construction of the electric brooder	265
Substitutes and Competition (F. A. Lyman)	394	Ventilation		Young, A. L.—Illinois studies in drying grain with forced heated air	62
Tavernetti, J. R.—A study of dairy coolers in California	314	Ventilation Essentials (J. L. Strahan)	90		
		Ventilating Dairy Barns with Electricity (G. C. Breidert)	99
